

# Graphic Monitor Centre

GSTGMC 2.1

## Description

The new developed GSTGMC2.0 Graphic Monitor Centre is the new developed software. With friendly interface, the software may support 8 client stations plus local monitor station, making complete monitoring and control. Also with Open Protocol Communication (OPC), the communication with panel can also be integrated into other systems. The related panel types include GST200/2 & GSTIFP8. The main features of this highly intelligent package are:

The self-reacting communication module automatically maintains data communication with panel. The operator can test the communication at any time to ensure the reliable running of system

The communication server connects to panel directly. The monitor stations can be set locally or through LAN or even through WAN.

Multi-level password control

Simple, direct and complete user graphics view interface, switching between device layouts of different monitoring zones.

Pop out layout of abnormal information automatically. Flash the abnormal device(s) in different colours for alarm, plant, fault and isolation.

Complete functions of database management and data copy ensure system safety by minimizing possibility of data loss.

## Features and Benefits

- Colour graphic control and display system
- Complete window onto the fire detection system and ancillary equipment
- Multi-level password control for convenient system management
- Up to 8 Clients

## System Requirement

### Hardware

CPU: Pentium III 600 or Higher  
Minimum free Hard disk:2GB / Memory:128MB

### Software

Windows 98SE, Windows XP Professional, Vista or Window 7

## Selection of compatible Control Panels

Compatible with all GST Intelligent fire alarm panel.

## Ordering Information

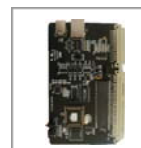

**Part Number:** GSTGMC  
**Description:** Graphic Monitoring Centre  
**Pack Qty. per Box:** CD

## Accessories

**Part Number:** P-9930  
**Description:** RS 232 Communication Board for GST200/2  
**Pack Qty. per Box:** 1

**Part Number:** P-9935  
**Description:** RS 232 Communicatio Board for GSTIFP8  
**Pack Qty. per Box:** 1
